 **HOT MIX**

Easy-to-use, stable dough making for everyone

Touch Panel Memory

The touch panel memory can save up to 20 menu items. It perfectly and automatically reproduces your usual operation.

Wireless Temperature Sensor

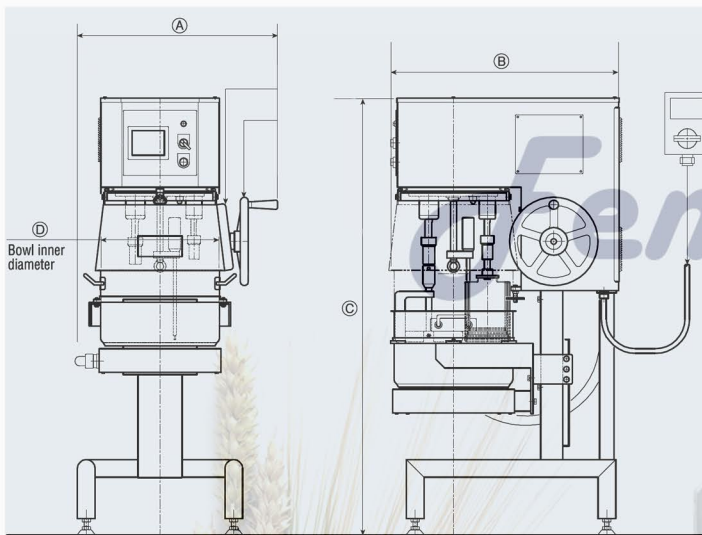

The wireless temperature sensor detects the temperature from the pan bottom on the induction heating (IH). This sensor is ideal for a variety of processes, ranging from the stage of dissolving ingredients in the hot water to the stages in making cream puff dough and jam.

Unique Twin Whippers

These uniquely developed, heterogeneous whippers achieve fine and uniform foaming

THM - 100L
