

Bread Slicer

HL - 52006

Product Character

HL-52001 is designed for the shop counter. A safety guard devise is designed especially for the countries that have strict safety regulations. The machine is safety-protected by an interlocked safety feeding guard which operates in conjunction with a safety loaf pusher system that is powered by a 1/2 HP motor. When the operating handle is in use the safety guard covers closely, and a safety loaf pusher passes each loaf completely through the slicer blades. A packing shelf is provided. It is recommended that the fitted crumb drawer be emptied at regular intervals to prevent mechanical failure.

Model no.	Slice Thickness (mm)		Max. loaf length (mm)	Motor	Safety cover
HL-52006	9 - 24		385	1 / 4 HP	Nil
	Dimension (mm)			N.W. (Kg)	Safety Loaf pusher
	Width	Length	Height
