

Invoq Bake 6-400×600 EN PassThrough

Electric model

From One Supplier

• SALES • SERVICE • SPARE PARTS •

The Invoq Bake PassThrough is the perfect double-doored kitchen appliance, where all the latest technologies have been made simple for you to use.

Increased rack spacing allows the circulating airflow to create perfect uniformity across the rack. You get an even and consistent bake covering all aspects of the baking kitchen from beautifully crusty breads to perfectly baked products from frozen and even delicately baked desserts.

The 2-door design saves time and is ideal for front baking. The LEDs in the door illuminates your creations in a visual theatrical way, functioning as display and provoking impulse buying.

The humidity creation and the automated cleaning system are controlled to utilise a minimum of energy and water without ever compromising quality results.

Specification:

Power consumption	Supply frequency	Voltage	IP Classification
10.3kW	50/60 Hz	400V 3PN AC	IPX5
