

## COMPACT FN FN101

Bread making Machine unit machine

From One Supplier

• SALES • SERVICE • SPARE PARTS •

This compact encrusting system automates the encrusting process for red bean buns, curry buns, and other types of breads. Maximum production is 1,200 pcs./h, and products can weigh is 50 – 200 g.

The Compact FN automates the filling encrusting process for sweet buns and other products. It can automate the encrusting process for red bean buns, curry buns, and more. As the device uses a mechanical version of manual encrusting methods, production efficiency is drastically improved while maintaining the same level of quality.

### Encrusting

Forming filled product  
Wrap filling with the encruster.

### Filling depositing

Deposits the filling on the  
dough.

Flattened dough is transferred  
to the Compact FN conveyor.
